KX-TG6432M

Expandable Digital Cordless Answering System with 2 Handsets

- DECT 6.0 Technology means less Interference
- Call Block^{1,2}
- Silent Mode
- Talking Caller ID^{1,3} / Talking Alarm Clock / Talking Battery Alert
- Expandable up to 6 Handsets⁴

- All-Digital Answering System
- Up to 4-way Conference Capability
- Ringer ID^{1,3}
- Light-up Indicator with Ringer/Charge Alert
- Lighted Handset Keypad
- Speakerphone on Handset

Panasonic ideas for life

KX-TG6432M Expandable Digital Cordless Answering System with 2 Handsets

DECT 6.0 Technology

Engineered to work in 1.9GHz frequency, our DECT 6.0 phones won't conflict with common wireless devices such as 2.4GHz routers, wireless keyboards and mouses, microwave ovens and other household items. And because it's digital, you'll enjoy long range and clear sound while deterring eavesdropping.

EXCLUSIVE FEATURES

Call Block

Store the Caller ID info of any and all unwanted callers into your phone's Call Block list so that vou can eliminate future pesky calls from them. After their information is stored, they'll get a busy signal if they call you again.

Silent Mode

Now you can program each handset to ring or not at your discretion. For example, before you go to sleep, set the bedside handset to Silent Mode so that it won't ring for the duration of your slumber. In the meantime, the handset in another room is unaffected, and rings as usual.

Talking Caller ID / Talking Alarm Clock / Talking Battery Alarm

Now you don't have to be holding the phone to see who's calling; using text-to-speech technology, the caller ID information is announced in between rings! The phone also boasts an alarm clock that speaks to you, as in "It's time for lunch." And the phone politely tells you when your battery is low with a "Please charge phone" reminder.

NA-1 G0432IVI	Specifications
Color	Metall

Color	Metallic Gray
Frequency	1.9 GHz
System	DECT 6.0
Number of Channels	60 Channels
Number of Handsets (Capability)	2 (Up to 6-H/S)
